

WAR SENDS WHEAT INTO THE CLOUDS

EUROPEAN WAR RUMORS ARE HAVING EFFECT.

Bulls On Chicago Market Are Having Things Their Own Way—Declaration of War Will Send Prices Higher—Farmers in This Vicinity Can Hold Their Wheat.

Farmers in this vicinity are watching with much interest the developments over the Fashoda affair which threaten to involve Great Britain and France in war. Already the talk of war has sent breadstuffs booming, and if warlike preparations continue a still larger increase in price will follow.

Farmers hereabouts have not a very large stock of wheat on hand, but they are in a position where they can afford to hold it in anticipation of a rise in price. All of them have ready money enough for present needs, and they can hold their wheat for months or years if need be.

In the Chicago market speculation is active the bulls having decidedly the best of it. Prices are already booming. During the past few days cables have moved up and down with the varying phases of the international controversy, and the export purchases have risen or dwindled with the same prospect. The speculator, in being moved by the export engagements or by the Liverpool or Paris prices, has really been swayed by the one overshadowing circumstance of the possibility of a European war. This will be the situation until the uncertainty is removed. Other bull or bear incidents will have effect merely as they will add to or detract from the extraordinary condition which a war would create. It is not remarkable that this dispute between England and France does not seem so all-important. A war does not seem so wild an improbability to the American when he remembers how incredulous he was of any fight with Spain. Then the possibilities in the way of wild advances in case of such a war suggest the sober taking in to account of every little change in this momentous disagreement. What if there have been a hundred war scares, with a hundred escapes from fighting? What would be the fate of a producer short if a sudden development over night increased the prospect of a conflict, or even made the escape from a war only a little more difficult? Isn't it remarkable rather than the markets have taken the matter as phlegmatically as they have? Is there any question at all but that the "Fashoda affair," as the quarrel between France and England is nonchalantly styled, is all there is for the produce speculator to think of until it is out of the way?

MUD MADE THE DIFFERENCE

Disagreement of Weights Between Two Sets of Scales Explained.

A disagreement between two sets of wagon scales, led to the calling in of George H. Davey, sealer of weights and measures, Saturday afternoon. The dispute was continued this morning, and one of the local stock buyers insisted that either the scales at the stock yards or the city scales on Main street, should be condemned.

As a matter of fact, the trouble was all explained by one word. A farmer bringing in three loads of hogs, weighed the wagons on the city scales. The hogs were delivered at the stock yards, being placed over the scales there and the net weight taken. The wagons were then brought back to the city scales and weighed out to determine the tare so that the net weight could be known according to the city scales. There was a difference of fifty pounds between the results on the city scales and the stock yard scales. The farmer wanted pay for fifty pounds more pork than the stock yards scales showed. Sealer Davey found both scales to be perfectly correct, and then inquired as to the circumstances. He solved the problem very promptly.

In bringing in his hogs the farmer had walked his horses, the load being a heavy one. The wagons weighed on the scales were covered with mud. On the way up Milwaukee street some of the mud shook off. Coming back with light empty wagons the horses troited over the pavement and enough mud was left along the street to make the 50 pounds difference. The question has been raised once or twice before, but never before has the sealer of weights and measures been called upon to reconcile the two sets of figures.

CUBANS ARE IN NEED OF INFORMATION

APPEAR TO BE IN IGNORANCE OF AMERICAN POLICY.

Their Objections to the Presence of Our Soldiers on the Island Are Not Based in Reason—Crisis in the Spanish Ministry—Hobson At Boston.

Washington, Oct. 24.—[Special].—The alleged rebellion in Cuba against American authority creates no uneasiness. The government is not informed officially of any resistance to its plans upon the island, but if such opposition exists it is due entirely to misapprehensions of the policy of this government. The discontent is alleged to proceed from the advocates of independence among the Cubans—a singular statement in view of the fact that the avowed purpose of this government, from the beginning of hostilities with Spain up to the present time has been to secure independence for the island. The military occupation has no other purpose than to assist independence by blotting out every semblance of Spanish authority and to preserve order during the transition period from Spanish seignior to complete independence. The Cuban leaders understand this, but if a few of the people are still in ignorance of the details of the plan they will be soon informed. No rebellion against the American protectorate need be apprehended.

HAVE YET ANOTHER YEAR.

Nicaragua Canal Company's Contentions Sustained at Managua.

Managua, Nicaragua, Oct. 1.—The contention of the American company regarding its canal concession from the government of Nicaragua is sustained.

A commission consisting of Supreme Judge Bonilla, ex-Supreme Judges Aguilar and Solva and Pedro Gonzales, a lawyer, met here Sept. 19, by order of President Zelaya, to give an opinion on the question: "On what date does the concession to construct a canal across Nicaragua expire?"

The concession, ratified by the Nicaraguan congress, April 20, 1887, was granted by the Nicaraguan government to the Maritime Canal company of Nicaragua, chartered by the United States government. The commissioners were asked to keep their decision secret from every one but President Zelaya and the cabinet ministers, but it has leaked out. The commissioners decided, it is said, that the contract expires Oct. 20, 1899.

Duke of York Will Visit.

London, Oct. 24.—A report from the United States to the effect that President McKinley would invite the prince of Wales to visit the United States has attracted attention. While the papers cordially indorse the suggestion of a royal visit to America, as tending to further cement the good feeling between the two countries, it is thought improbable that the prince of Wales will go. But an evening newspaper points out that the duke of York has given a half promise to go to Canada next year, and it adds that there is nothing impossible in the idea that if President McKinley follows the example of President Buchanan, the duke of York will follow in the footsteps of his father and extend his visit to the United States.

Plea for a Michigan Woman.

Among the laws of Michigan is one regulating the killing of deer. After mature reflection, Mrs. A. Hurd, of Harbor Springs, thinks she sees in the provisions of this statute a way by which she may be reimbursed for the loss of her cow. The bovine was grazing in a wood not far from Mrs. Hurd's home when it was attacked by a buck deer. As a result of the battle, muley died, and now Mrs. Hurd contemplates suing the state for damages. She sets up the plea that inasmuch as the law prohibited her from killing the deer which chased and mortally injured her cow, the state ought to pay her for the deceased animal or furnish her another "just as good," as the office-seeker would say.

BITTER TELEPHONE FIGHT IN PROSPECT

INDEPENDENT COMPANY COMPETING FOR BUSINESS.

Has Circumvented the Schemes of Its Rivals to Keep It Out of the Field—Now Controls a Long Stretch of Wires in Iowa, Minnesota and Wisconsin.

The new metallic telephone line known as the Independent Telephone company, with its headquarters at LaCrosse, which is now operating in Janesville, having just secured the number of subscribers needed to warrant the extension of its lines to this city and the opening of an exchange, promises to make a lively fight against the Bell, or Wisconsin company. The La Crosse Telephone company has been the nucleus about which has gathered all the anti-Bell movements in Wisconsin and southern Minnesota. The La Crosse company put the first successful independent local exchange in Wisconsin. Then other cities tried it, and the movement spread to Winona and other Minnesota towns. Some weeks ago a deal was perfected whereby the Northwestern Telephone Exchange with headquarters in Minneapolis, which is the Bell company in Minnesota, purchased some several thousand miles of independent toll lines, connecting 800 towns and cities in Minnesota, Iowa and Dakota. This, it was thought at the time, would cripple the La Crosse company to such an extent that it would be forced out of the toll or long distance business, in this territory. But it turns out that such has not been the case. The La Crosse company has just perfected a traffic agreement with the Standard Telephone company, with headquarters at Britt, Ia., another independent concern, where by practically all of its former western connections are regained and many new towns have been added to the toll line lists. A flat rate of 15 cents for five minutes' talk to any point on the new system has also been inaugurated, and this is expected to start a rate war.

It is learned from Mr. Brewster, manager of the new company who was in Janesville a few days ago, that the work of construction on the new line will begin at once, and before Christmas it will be in operation, giving this city connection with many points hitherto inaccessible by telephone and furnishing the city patrons telephonic communication at greatly reduced rates.

Three Doctors in Consultation

From Benjamin Franklin.

"When you are sick, what you like best is to be chosen for a medicine in the first place; what experience tells you is best, to be chosen in the second place; what reason (i. e., Theory) says is best is to be chosen in the last place. But if you can get Dr. Inclination, Dr. Experience and Reason to hold a consultation together, the doctor will give you the best advice that can be taken."

When you have a bad cold Dr. Inclination would recommend Chamberlain's Cough Remedy because it is pleasant and safe to take. Dr. Experience would recommend it because it never fails to effect a speedy and permanent cure. Dr. Reason would recommend it because it is prepared on scientific principles, and acts on nature's plan in relieving the lungs, opening the secretions and restoring the system to a natural and healthy condition. For sale by People's Drug Co., corner Main and Milwaukee streets.

PARIS COSTUME WITH LONG TRAIN AND HAT

Black and white combinations, never more fashionable than at the present time, appear in costumes entirely of velvet, or in black cloth tailor gowns, made with heavily braided white revers and waistcoats.

A velvet coat of the popular Louis shape has broad rolling revers and collar of white satin, covered with black chenille braiding. The coat-tails open to the waist in the back, and show a lining of white satin, and the blouse and corset are of tulle applied with white satin. An Oriental clasp fastens the closely folded girdle. The velvet skirt is made with a tight fitting circular upper part, lined throughout, to which is added a flounce, whose fullness is formed into narrow box pleats taken up at intervals and held in place by three jet and gold buttons. The flounce is lined with silk and no

foundation silk is necessary. There is no fullness at the belt behind and tiny buttons with loops fasten the placket. The width of the flounce at the foot is four and a half yards. A new chenille galon worked with metal threads—one of the novelties of the season—trim the flounce and coat in bow knot designs. The close sleeves, fitted by gorges have a deep circular cuff at the hand, open on the inside.

The proper cut of this gown can be obtained only from the cut-paper patterns published by Harper's Bazar, where the gown appears.

The French felt hat, in tulip form, has a velvet fan in front from which sweeps a broad, bright colored brim, while at the right side is a knot of the same velvet.

Quantity of material for costume—17 yards of velvet, 21 inches wide.

An Aid to Discouragement.

The sufferer from chronic disease often abandons hope and becomes miserably despairing. There is no need of doing so for there is hardly a complaint that cannot be cured by somebody or some remedy. Dr. Greene, 148 State Street, Chicago, Ill., the famous specialist, and undoubtedly the most successful doctor in curing disease, can point to thousands of cases which had grown hopeless but which were by his treatment restored to full health, vigor and vitality. You can consult Dr. Greene by letter, free. Therefore do not be cast down, but write to the doctor and be cured and made happy. Dr. Greene is the discoverer of that greatest of medicines, Dr. Greene's Nervura blood and nerve remedy.

More Of Those Tempting Crowd Gathering Values

That explains why Quatsoe's shoe house is so remarkably conspicuous as always being the busiest in town. Two Grocery Bargains

We have just received a large invoice of new crop prunes of very fine quality which we will sell at the special bargain price of 5c per pound. They are the kind that usually sell at 8c and are worth it. We have also received an invoice of new rice and although the crop has been seriously damaged by heavy storms lately in the Carolinas, Georgia and Louisiana, we were fortunate in securing a quantity and will let it go at 5c per pound. DANGER LIES IN THE LIGHT REGISTRATION

VOTERS IN WISCONSIN SHOW MUCH APATHY.

The Vote Will Doubtless Be Small Throughout the State—Republicans Confident in All But Two of the Congressional Districts—Mayor Rose's Attack on the President.

The Milwaukee correspondent of the Chicago Tribune has been looking over the political situation in Wisconsin and finds that this light registration this fall has made the managers of both parties uneasy, but still the republicans have no fear for the state ticket and are certain of carrying eight congressional districts.

In the Second and Fourth districts the democrats are making a bitter fight. The result in the Second is in doubt, but in the Fourth the chances favor the return of Theodore Tilton. In Milwaukee the people are just awakening to the importance of the campaign.

Mayor Rose has done more than any other campaigner to awaken interest, although he did not attend to it in the manner in which he has accomplished it. His attack on President McKinley has served as a stimulant to republicans to go to the polls and has also driven a large number of his own party to the support of the republican ticket.

BOTH COUNTRIES ARE FIRM.

No Settlement Yet Between Great Britain and France.

BACKDOWN IS IMPROBABLE.

Lord Salisbury Is Insistent in His Demand That Major Marchand Be Withdrawn from Fashoda—France Refuses to Yield.

London, Oct. 24.—If anybody still harbors the delusion that public opinion in London, or for the matter of that in Great Britain—for in this instance they are evidently identical—is likely to climb down in the Fashoda affair, he might come here and convince himself of the contrary.

During the last forty-eight hours a number of representative persons of almost every walk of life have been spoken to, but while not in a single instance has any personal animosity against the French as Frenchmen been found, not a single person has been met who for one moment entertained any hesitation as to what the attitude of Great Britain shall be.

According to the Paris Figaro, M. Delcasse was able to inform the council Saturday that he had good hopes of arriving on the delicate question of Fashoda at a solution which could be very honorably accepted by the two nations.

ANXIETY AT PARIS.

Interest in the Fashoda Affair Is Increasing.

Paris, Oct. 24.—Interest in the Fashoda incident is increasing. Indeed, a certain tone of anxiety is noticeable in public opinion.

There was a rumor last evening that Great Britain intended to send an ultimatum. The press repeats it, and says it is current in official circles in London.

This is probably nothing more than an alarmist view of the orders given by the admiralty in various directions, notably that the warships at Portsmouth shall bring up their crews to the full strength.

The Havas agency announces that official notice has been given out to the British papers denying that any warlike preparation is intended in these orders.

As a matter of fact everything is being done here to settle the question peacefully. Most of the papers discuss compromise as an acceptable arrangement. All of them refuse even to consider the recall of Marchand pure and simple.

The Liberte, in discussing the speech of M. Chaplin, says the president of the local government board is like his colleagues, Lord Salisbury himself, while professing pacific sentiments and friendship for France, demands the evacuation of Fashoda by Marchand as a preliminary in negotiations. "That," says the Liberte, "it must be said and repeated, the British government will never obtain."

To Reopen Egyptian Question.

London, Oct. 24.—The French yellow book on Fashoda seems to indicate an intention on the part of the French government to utilize the Marchand affair as a means of raising the whole Egyptian question. The London press admits the gravity of the situation revealed by the yellow book, but the papers are unanimous in declaring that it is impossible for Lord Salisbury to consent to any negotiation until Fashoda is evacuated. As, however, the French foreign minister, M. Delcasse, with equal firmness, declines to withdraw Marchand without previous negotiations, the situation has an ominous look.

No Foundation for Alarm.

Paris, Oct. 24.—A semi-official note issued says: "There is no foundation for the alarmist rumors regarding the relations between France and Great Britain. It is equally incorrect to say that extraordinary measures have been taken at any of our naval ports."

Troops Going to Cherbourg.

Cherbourg, France, Oct. 24.—Orders have been received at the military and naval arsenals here to prepare for the arrival of a large body of troops at once. The barracks are being hurriedly put in order for their reception.

His Tire Punctured.

A young woman of Rio Janeiro, who had met her husband at a bicycle meet, has had the incident depicted on his tombstone in alto relievo. The effect is described as more novel than artistic, especially as she is chiseled as attired in bicycle costume. In the inscription, which is in Spanish, is a sentence which may be translated: "My dear soul had the tire of his life prematurely punctured."

REPORTS ON SPANISH ARMS.

Board of Officers Finds About 7,000 Mausers Available.

Washington, Oct. 24.—The board of officers of the ordnance department, which was directed by Gen. Flagler to inquire into the condition of the Spanish small arms captured at Santiago, has made its report.

The board finds that the Spanish arms consists of two patterns, the Spanish Mauser of 7-millimeter caliber and the Turkish Mauser of 7.65 millimeter caliber. The cartridges for these arms are of course not interchangeable. There is only a small percentage of the latter arm, however, not enough to take into consideration the subject of restoring them for use in the army.

Of the Spanish Mausers it was found that about three-fourths of them could be utilized by taking parts of the remainder and supplying deficiencies in the best arms. This would make, at a rough estimate, 7,000 Mausers available for use in the army if needed.

No decision has been reached as to the feasibility of introducing them into the American army, and it is possible that for the present they will be held to await an emergency.

SLAGLE RANKS FIRST.

Western League Figures Out—Kansas City Player Heads the Batting List.

Chicago, Oct. 24.—By the official records of the Western League, released yesterday by President Ban Johnson, Slagle of Kansas City leads the batsmen with an average of .378. Harry Wolverton, secured by Chicago from Columbus, stands tied for eighth, with .315, while Mertes, who played in but eighteen games before coming here, is fourteenth, with .309. Taylor, the new pitcher, hit a strong clip for a slab artist, .287, and ranks well in winning games, but Phyle is down eighty-fourth in the batting list and has not as good a winning percentage. Isbell, tried and then released to St. Paul, batted at a .307 clip after leaving this city.

Duck Hunters Drawn.

Chicago, Oct. 24.—A small skiff in which three young men of Evanston ventured from Wilmette into the rough waters of Lake Michigan early yesterday morning on a duck-hunting expedition capsized when five miles from land and the occupants were nearly before they sank they clung for dear life to an hour to the overturned boat while a life saving crew was pulling to their rescue, unknown to them, but the chill water benumbed them and the heavy ammunition in their pockets weighted them down, until, one by one, they gave up the struggle and went to the bottom. The dead are:

LA BAHN, LOUIS, twenty-two years old, superintendent of the machine department in the brick yards of his father, Evanston.

SCHAFER, WILLIAM, thirty years old, workman in the La Bahn Brick company's yards.

UNIDENTIFIED MAN, employee in the La Bahn Brick company's yards.

Many of the lines will be formally sold to the parent corporation, but those in such shape that a formal purchase cannot be made will be conveyed to the company by lease.

Double Tragedy at Omaha.

Omaha, Neb., Oct. 24.—John Melchert, living at 1330 West Madison street, Chicago, Sunday afternoon shot and killed his sweetheart, Miss Lillian Morris, and immediately committed suicide. The double tragedy occurred in a downtown photograph establishment, and the murderer and his victim were posed before the camera in an affectionate attitude when the fatal shots were fired. The cause of the shooting is unknown.

"I DO MY OWN WORK."

So Says Mrs. Mary Rochlette of Linden, New Jersey, in this Letter to Mrs. Pinkham.

"I was bothered with a flow which would be quite annoying at times, and at other times would almost stop."

"I used prescriptions given me by my physician, but the same state of affairs continued."

"After a time I was taken with a flooding, that I was obliged to keep my bed. Finally, in despair, I gave up my doctor, and began taking your medicine, and have certainly been greatly benefited by its use."

"Lydia E. Pinkham's Vegetable Compound has indeed been a friend to me."

"I am now able to do my own work, thanks to your wonderful medicine. I was as near death I believe as I could be, so weak that my pulse scarcely beat and my heart had almost given out. I could not have stood it one week more, I am sure. I never thought I would be so grateful to any medicine."

"I shall use my influence with any one suffering as I did, to have them use Lydia E. Pinkham's Vegetable Compound."

Every woman that is puzzled about her condition should secure the sympathetic advice of a woman who understands. Write to Mrs. Pinkham at Lynn, Mass., and tell her your ills.

WISDOM IS JUSTIFIED

The "American Bulletin," in a review of the American iron trade in 1897 and in the first seven months of 1898, says: "The fiscal year which ended on June 30, 1898, was the most remarkable in our history in the great increase that it recorded in our exports of domestic merchandise, a large part of which increase was due to the foreign demand for American iron and steel, which has been growing rapidly in the last few years. In the year mentioned we exported 235,868 tons of pig iron and 232,552 tons of iron and steel rails. The protective policy which was once so industriously derided by our now discredited free traders, because they said it hindered our foreign trade, is now triumphantly vindicated. This policy has promoted competition, competition has brought down prices, and low prices, and have opened foreign markets to our products. Wisdom is justified of her children." Much is said in the newspapers about the means that are necessary to increase our exports of manufactured products to foreign countries. We repeat what we have heretofore said, that the way to increase these exports is to subsidize mail steamship lines between our principal ports and the principal ports of other countries. Trade would follow the flag, and it would be greatly helped by regular and frequent means of communication. We should also build the Nicaragua canal for commercial as well as for military reasons. The trade of the Orient would then largely fall into our hands."

CONQUERING AND TO CONQUER.

That sterling American, Senator C. K. Davis, of Minnesota, who has entered upon his duties as a member of the peace commission, delivered a significant address on the occasion of a large public meeting held in his honor in St. Paul. Senator Davis took strong ground in favor of retaining to the fullest extent the territory won by the United States as the result of the war with Spain, and in that connection said:

"Today the American markets are within the grasp of American industries, and the American hand is feeding the American mouth. Nor is this all, for today our manufactured products are seeking the markets of the world. The markets of the world comprise the 1,400,000,000 human beings which the world contains, and it is in this market that American manufacturers are competing, as the natural result of a wise protection."

Herein is crystallized the great fact of America's splendid position: first, the safe grasp of the great home market, second, the successful search for outlets into the markets of the world. The first condition makes the second

possible. Having firmly entrenched themselves at home, American industries may now feel secure in their base of operations and confidently go forth conquering and to conquer.

No army of peaceful progress was ever so grandly equipped and fortified. —American Economist.

John A. Dix said: "If anyone attempt to haul down the American flag, shoot him on the spot." The partisan enemies of the administration are seeking to haul down the flag, and the people will take General Dix's advice on November 8.

President McKinley's administration has commanded the admiration of the civilized world. Every American is justly proud of its achievements, and will pay it the highest compliment he can—the approving ballot of an honest man.

SUNDAY SERMONS BRIEFLY EPITOMIZED

REV. MR. KEMPTON'S DISCOURSE AT BAPTIST CHURCH

The Power of Personal Influence Commanded Upon and the Need of Care in Exercising It Judiciously Enforced.—Rev. Mr. Hall Speaks of the Glories of Sabbath.

The pleasant Sabbath morning brought out a large congregation to hear pastor Kempton upon "The Inner Life." His text was in Matt. 5 to 20. It is no uncommon thing for a sermon to be misunderstood. This sermon on the Mount is no exception. Many think that they are living according to the spirit of the sermon when they do not understand the true spirit.

There never was a sect that lived such righteous lives as the Pharisees and Pharisees. The most holy man, outwardly that ever lived, was the Pharisee, and yet our righteousness must exceed his.

How important is the outward life? Yes, he that thinks that because his heart is right he can live an evil outward life is wrong. This is the greatest mistake one can make. The inner life must work outwardly.

Notice that the inward life is the more important. Christ bids us look at the very germ which will grow into evil action. Anger is the beginning of murder.

If we would worship God aright, we must first be reconciled to our brother. This is the law of the inner life.

Again Christ teaches the principle of sacrifice. We must give up everything that would hinder us in our christian living. There may be something that of itself is perfectly innocent that interferes with our spiritual life. We should cast it away.

Notice again that every word of ours should be sacredly kept. We should always tell the truth, in business as well as in church. Again we are to show the spirit of kindness to all, even to our enemies.

Do not try to explain away this teaching. Take it just as Christ gave it. Cultivate this inner life and your outward life will be right.

Take Christ as your ideal. He is perfect and we are commanded to strive to be like him. Keep Him ever before you and sometime in time or eternity you shall reach it. Copy not after men, but ever strive to be Christlike and you shall be like Him.

In the evening Mr. Kempton's subject was "The Power of Personal Influence." His text was in Prov. 27, 17 and 19. The outline of the sermon was as follows: Consider first the power of conscious influence. This influence may be for good or evil. We may exert an influence for good in many ways, if we only will consider again the power of unconscious influence. There are many ways in which this may be done. We may exert a great influence by a simple look or smile or example. May the Lord help us to exert an influence, that shall ever be on the side of right and christianity.

TIMELY AUTUMN SERVICE.

Interesting Occasion At the Court Street Methodist Church.

The autumn service given at Court Street M. E. church last evening was timely, well attended and thoroughly enjoyed. The music was a very high order. The Court Street Quartette, consisting of Christine Hawley, Mrs. Fannie Clark, Messrs. Hawley and Hunting sang with very excellent rendition. "The Radiant Morn Hath Passed Away." Mr. Ebersole delighted the audience with two selections. He sang by special request "The Holy City," and "Thou Callest Me, O Master." Autumn leaves, vines, and some stalks of corn made up a decoration that was very tasteful. Rev. Walter A. Hall, the pastor, spoke somewhat briefly, but feelingly, of some of the varied lessons written now everywhere. The audience was deeply attentive. Those who were present went away feeling that a Sabbath evening had been spent very profitably.

Why not wear a shoe with a record? F. L. Quatsoe, advertiser of facts.

Why is it that when you buy your shoes here they wear so much better? It's because we buy the right kind and always sell them at the right price. Children's fine kangaroo calf shoes, spring heel, sizes 5 to 8 at 75 cents don't pay more. Little Giant school shoes at \$1.25 and \$1.35. Rightly named because they wear so well. F. L. We sell men's fine satin calf shoes, all leather lined heavy double soles, extra extension in shoe at \$2. The double sole in this shoe runs clear to the heel. It would be ridiculous on your part to pay other dealers \$3 for this shoe when you can buy them here for \$2. F. L. Quatsoe, Advertiser of Facts.

I have a stock consisting of 600 suits, 500 pair of pants, 150 overcoats, hats, caps, shirts, collars, cuffs, gloves, buttons, neckwear, sweaters, Cardigan jackets, &c., &c., which has been replenished with a new line for fall and winter. Cost cuts no figure during this sale. Bring in your money and make me offers and the goods are yours. I want five experienced salesmen. I will conduct this sale personally until closed out. John Weissend on the bridge, Janesville, Wis.

Fastest selling Saturday was ever seen in Janesville. Saturday was a big day with us; giving good values always bring good results and profit is small, but the quantity we sell is large enough to make the people talk. We have the reputation of selling more shoes than any other house in Janesville. We have rightly earned it by giving the best values. Here and here only can you buy men's box calf shoes, heavy double soles, new round toe at \$2.00. Why should you pay other dealers more? F. L. Quatsoe, advertiser of facts.

Oliver Man in Michigan.

Henry Banks of Bangor, Mich., celebrated his one hundred and fifth birthday last Sunday. The old man, who is colored, is the oldest person in Michigan. He was born in Louisiana and in his younger days was a slave. When a babe in Louisiana he sold for \$150, and when grown large enough to ride his master's horse was sold for \$1,000. Banks' owner and a neighboring slaveholder had a quarrel, and to this he owes his freedom. The latter, in revenge, assisted Banks to escape by the underground railway route to Canada. The old man was an eye-witness of the battle of New Orleans.

The Royal is the highest grade baking powder known. Actual tests show it goes one third further than any other brand.

WALL STREET CASE APPEALED AGAIN

TRAIN SHED STANDS PENDING THIS DECISION.

Judge Bennett Granted An Injunction Against the Obstruction of the Street But Also Granted A Stay Of Proceedings to Permit Of Another Hearing.

Judge Bennett had the C. & N. W. depot case before him again this afternoon. He granted the injunction against the further obstruction of Wall street, but also granted a stay of proceedings under the injunction. This was done to permit an appeal to the supreme court on the part of the railroad company.

It was urged by Attorney Ruger for the railroad company, that the law had changed since the action was begun—that the common council's action in vacating the street would have been legal under the statute now in force.

Denial was made by Attorneys Dunwiddie and Nolan.

The court ruled that an appeal might be taken, and granted the stay. This makes it impossible to open Wall street until the case has gone once more to the supreme court.

Bonds were required from each party in the case, the plaintiffs in the sum of \$5,000 and the railroad company in the sum of \$10,000.

AN IMMENSE SUN-DIAL.

An immense sun-dial, certainly the largest in the world is at Hayon Horro, a large promontory extending 3,000 feet above the Aegean Sea. As the sun swings around the shadow of this mountain it touches, one by one, a circle of islands, which act as hour marks.

BELIEVE SPAIN WILL YIELD.

Must Abandon Her Contention as to Cuban Debt.

THE END MAY COME TODAY.

This Afternoon's Session, It Is Thought Will Settle the Matter One Way or the Other—Negotiations Not Likely to Be Broken Off.

Paris, Oct. 24.—The impression prevails here that at today's meeting of the Spanish-American peace commission Spain will yield to the inevitable, abandoning her contention that she should not be obliged to shoulder the Cuban debt. Notwithstanding this general feeling, considerable anxiety is felt in view of the fact that the Spaniards already have twice threatened to break off negotiations.

It is a curious feature of the Spanish side of the peace negotiations that Montero Rios is only nominally the head of the commission. The real master of the situation is the Spanish ambassador here, Senor Leon y Castillo. Nothing is done without consulting him, and accordingly one who wishes to forecast the action of the commission does well to learn Senor Castillo's views. The ambassador expresses himself as highly displeased with the inflexible bearing of the American commissioners. At a recent diplomatic dinner he said to one of his colleagues: "Our commissioners make certain propositions. The American commissioners answer only 'No.' We modify the proposal. Still the reply is simply 'No.' We abandon the first suggestion altogether and submit an entirely new one. Do the Americans meet us half way? Their answer still is 'No.'"

Nevertheless the intercourse between the members of the two commissions continues to be of the politest nature, in spite of all assertions to the contrary heard in various quarters.

In some American newspapers it is asserted that Geneva would have been a better place than Paris for the meeting of the commissions. In reply to the allegation Le Temps in a leading article well says: "We doubt if a capital could have been found where public opinion would have been better disposed toward both parties and more thoroughly resolved to respect the right of the plenipotentiaries to absolutely free deliberation."

This statement now is strictly true. It was not without excuse that grave objections were raised two months ago to the meeting of the commission at Paris, but those objections have vanished. The newspapers, society, the general public and of course the government have been most just and considerate in treating both the contending parties.

TROOPS TO GO TO SAVANNAH.

Half of the 7th Army Corps Already Transferred to the New Camp.

Camp Cuba Libre, Jacksonville, Fla., Oct. 24.—Six regiments of the twelve comprising the Seventh army corps have now left here for the new camp at Savannah. Saturday night the First Texas and Second Louisiana regiments went up, and last night the One Hundred and Sixty-first Indiana and the Third Nebraska took their departure.

The Fourth Missouri will be left here to do provost guard duty and to assist in the care of the sick left behind. There are now about 800 patients in the hospitals. A large percentage of these are convalescents, and as fast as they are able to travel they will be sent home on furloughs or back to their commands.

Rebels Grow Desperate.

Manila, Oct. 24.—The attitude of the insurgent troops has become very menacing. Their supplies are growing scarce and they are becoming desperate. Their leaders assure the troops, who have had no pay for months, that they will soon capture Manila. The Filipino newspapers insist upon absolute independence and denounce annexation to the United States or an American protectorate with equal energy. The American authorities, naval and military, are taking precautionary measures, although no immediate trouble is anticipated.

Hobson to Ask for \$1,000,000.

Santiago de Cuba, Oct. 24.—It is reported from Guantanamo that Naval Constructor Hobson, who left there early last week for Jamaica with the intention of taking the Atlas line steamer for New York, is going to Washington to obtain an appropriation, if possible, of \$1,000,000 for the purpose of raising the sunken Spanish cruiser Vizcaya.

Col. Bryan Is Sick.

Jacksonville, Fla., Oct. 24.—It is reported that Col. William Jennings Bryan, who left with his regiment Sunday for Savannah, was quite sick and that he had wired to his home asking Mrs. Bryan to come East and meet him at Savannah. The report came from an officer of the Third Nebraska regiment.

MRS. DELLEREGGE'S HOODOO

Picture of Her Daughter in the Coffin of Her Sister.

Mrs. Elizabeth Delleregge, of 1301 Ohio avenue called at the health department one morning and asked to be furnished with a permit to exhume the body of her dead sister, Mrs. Minnie Schober, who is buried in Concordia cemetery, says the St. Louis Globe-Democrat. She said she was convinced a picture of her deceased daughter Annie had been placed in the coffin of Mrs. Schober prior to its interment. That picture was operating as a "hoodoo," Mrs. Delleregge declared, and she claimed that nothing but bad luck has visited her family since the picture was buried with Mrs. Schober's remains last December. Among the direful calamities which Mrs. Delleregge ascribes to the "hoodoo" have been the death of her daughter Annie, which occurred two weeks ago; the disappearance from home of John, her eldest son, and frequent spells of sickness which have visited her other two sons and herself. Mrs. Delleregge's only reason for believing her dead child's photograph to be in the coffin of Mrs. Schober is because she and her deceased daughter both had dreams to that effect. Mrs. Delleregge left the city hall without the permit she wanted, as one of the health department's rules is that no bodies shall be exhumed during the summer months.

SCARLET HARD TO HIT.

Advantages of Red for Use in Soldiers' Uniforms.

Scarlet, it has always been supposed, was the worst color possible for the purpose of the battlefield. It has been said so with such frequency, indeed, that nobody of late years has cared to dispute the fact. We owe it to some very practical experiments carried out in Germany that the question has now been put on a more satisfactory basis. A squad of ten men, two dressed in light gray, two in scarlet, two in blue, and two in green, were lately ordered to march across an open country. Their movements were closely watched. The first men to disappear from sight were those in light gray, immediately after ward the scarlet, then the dark gray and finally the blue and green. Here we have all well-worn theories upset. Experiments carried out on the rifle range showed that the British national color possesses even distinct merits. The idea was this time to ascertain which color gave the worst mark for the rifle. Twenty men, all good shots, were used for the purpose of the experiment. After they had fired a given number of rounds it was discovered that scarlet was far the most difficult color to hit. For every miss at the other colors there were three in favor of the scarlet. We will not assert that these experiments were conclusive.

DROWNED AT COOK'S INLET.

Nine Men Lose Their Lives, One Belonged to Scott of Shaftsbury, Ill.

Seattle, Wash., Oct. 24.—Confirmation of the rumor of the drowning of nine men at Cook's inlet Sept. 18 is brought by F. M. Stone of Hollister, Cal., who arrived on the schooner Woodbury from Cook's inlet. Those lost were:

FRANK L. ROBINSON, Santa Cruz, Cal.
KIT CARSON PAYNE, Portland.
A. M. ADAMS, Bellevue, Pa.
M. WOLCOTT, New York.
OLIVER WOLCOTT, New York.
LOUIS F. ZIMMER, Hope Church, Pa.
J. M. BONNER, Pittsburg, Pa.
H. SCOTT, Shaftsbury, Ill.
CHRIS JOHNSON, owner of schooner.

They boarded Chris Johnson's sloop at King City, intending to go to San Francisco City. They started at the same time as Charles Miller did with his ten-ton schooner. They accompanied Miller as far as Fire Island, where Miller anchored.

The latter reports the last seen of Johnson's boat was in Turnagain arm, opposite Hope City.

It is supposed the sloop went down either in one of the frequent storms or in the enormous tide bolts that rush up the arm. The tide rises fifty feet, the second highest waters in the world.

Peace Cross Is Unveiled.

Washington, Oct. 24.—A most impressive ceremony in this city Sunday was the unveiling of the peace cross on the summit of Mount St. Albans, the site for the new Episcopal cathedral. The ceremony was in lieu of laying the cornerstone of the edifice, which will be known as the Cathedral of St. Peter and Paul. President McKinley attended and delivered a brief address. Many other distinguished men were present, besides 300 bishops and other high dignitaries of the church, which has been holding its convention in Washington.

Causes of Short Sight.

Short sight is a common condition in town than among country folk, for the simple reason that town people have less need for long sight. They have fewer opportunities for exercising their sight on distant objects and their occupations do not favor its development by training or selection, but it is not, in the majority of cases, a proof of physical degeneracy, as can be seen in the case of the Germans, who are a notoriously short-sighted people.

IS IT A TRIFLE?

That Common Trouble, Acid Dyspepsia Or Sour Stomach.

Now Recognized As a Cause Of Serious Disease

Acid dyspepsia, commonly called heartburn or sour stomach, is a form of indigestion resulting from fermentation of the food. The stomach being too weak to promptly digest it, the food remains until fermentation begins, filling the stomach with gas and a bitter, sour, burning taste in the mouth is often present. This condition soon becomes chronic and being an every day occurrence is given but little attention. Because dyspepsia is not immediately fatal, many people do nothing for the trouble.

Within a recent period a remedy has been discovered prepared solely to cure dyspepsia and stomach troubles. It is known as Stuart's Dyspepsia Tablets, and is now becoming rapidly used and prescribed as a radical cure for every form of dyspepsia.

Stuart's Dyspepsia Tablets have been placed before the public and are sold by druggists everywhere at 50 cents per package. It is prepared by the Stuart Chemical Co., Marshall, Mich., and while it promptly and effectually restores a vigorous digestion, at the same time is perfectly harmless and will not injure the most delicate stomach, but on the contrary by giving perfect digestion strengthens the stomach, improves the appetite and makes life worth living. RACE WAR IN MISSISSIPPI.

White Men Organize to Exterminate Negroes.

NINE ARE SAID TO BE DEAD.

Trouble Arises Over the Killing of a Deputy Marshal Sent to Arrest a Negro Criminal—Gov. McLaurin at the Scene of the Trouble.

Forest, Miss., Oct. 24.—Since Saturday night a bloody race war has been in progress in the neighborhood of Harkersville, a little inland town of Scott county. As a result of the fighting nine negroes have been killed, one white deputy slain and three others wounded. The trouble originated in an attempt made Saturday to arrest a negro named Bill Burke, about a mile from Harkersville. As the deputy and his band approached the cabin in the negro fired on them from ambush. Sibley, a deputy marshal, fell dead.

News of the affair reached here Sunday morning. A posse of ten men, with a deputy sheriff, went to the scene. The negro had been reinforced by others of his race, and the posse telephoned back for help and Sheriff Stevenson and twenty-five men went out. Gov. Stevenson was wired at Brandon and came over with twenty-five armed men, accompanied by Congressman Henry. At noon a crowd of 300 men had gathered at Harkersville and others were flocking in. About 250 started in pursuit of the negroes, who had taken refuge in the swamps. There were about seventy of them. They had scattered in various directions and as the whites appeared battles were fought in the woods. Nine negroes are already reported dead, several others wounded and five taken prisoners. It is more than probable that when the casualties are all reported the list of killed will far exceed this number. It is hoped that the presence of Gov. McLaurin may check further bloodshed.

After the news of Sibley's death became known a crowd of enraged citizens assembled at Harkersville and went immediately to Burke's house and secured from his mother the names of all persons in the crowd which had ambushed the men the night before. In all there were about forty negroes which had gathered to prevent the arrest of Burke. All of them had fled. Then the pursuit and search for each of the proscribed men began. According to the statement of reliable citizens, six negroes were found and killed by the crowd of armed and determined citizens before the sheriff arrived.

War in North Carolina.

Wilmington, N. C., Oct. 24.—At 3 o'clock Sunday morning a squad from the negroes who were dispersed at Ashpole, Robeson county, crept up to the town and shot three whites stationed there as guards. They were Albert Floyd, Robert Inman and William Bullard. Bullard is seriously wounded, the others slightly. Four negroes who shot the three white guards have been captured near Ashpole. The negroes are now confined in box cars at Ashpole and heavily guarded. It is uncertain yet what the fate of the negroes may be, but it is feared the guards will so exasperate the whites as to cause further and more serious trouble.

Trouble with Indians Feared.

Perry, Okla., Oct. 24.—It is feared that serious trouble is brewing among the Comanche, Kiowa and Apache Indians. For thirty years, since the Medicine Lodge treaty, the government has fed these Indians, but that treaty expired on July 1. The redmen have commenced killing cattle belonging to Texas cattlemen, and a crisis is near. These Indians have no crops, few cattle, and have had no money for months. Men who know predict great starvation among them this winter and serious trouble. There are 1,500 Comanches, 1,300 Kiowas and 600 Apaches.

Bad Fire in Des Moines.

Des Moines, Iowa, Oct. 24.—The building and stock of Perkins & Brinsmaid, importers and jobbers of china, crockery, and glassware, were badly damaged by fire, which consumed the upper two stories of their four-story building early Sunday morning. The loss is conservatively estimated at \$100,000.

Delegates Fill the Pulpits.

Fort Wayne, Ind., Oct. 24.—Mrs. Larmore of London was the principal speaker at the closing session of the railroad Y. M. C. A. conference. Delegates filled all the city pulpits Sunday. At night there was an enormous meeting at the Princess rink. The conference adjourned sine die.

Colored Miners Go South.

Atlanta, Ill. Oct. 24.—Twenty negro miners and their families left here Sunday morning for East St. Louis. Their expenses were paid by the coal company. The miners were a very quiet, orderly set of people.
